Sri Ramesh Chandra Sethi, O.A.S.(S), Additional District Magistrate (General), Dhenkanal presided over the meeting along with Er. Ramesh Kumar Ekka, Regional Officer, State Pollution Control Board, Angul.

At the outset, Regional Officer welcomed the public present in the meeting. He briefly described the objective of the public hearing meeting conducted as per the provisions of EIA Notification No. S.O. 1533(E) of Dt.14th September 2006 of the Ministry of Environment, Forest & Climate Change (MOEF & CC), Government of India. He also informed that the date, time and venue for conducting the public hearing meeting for M/s. MKD Eco Clean Pvt. Ltd., At: Plot No.553/1081, 555, 556, 557, 559, 560, 561, 562, 563, 565, 566, 567 located in Tahasil/Thana- Gondia, in Dhenkanal District held on 29.01.2026 at 11.00 A.M. At Dasamanpatna Panchayat Office Premises, Mouza- Karanda, Pingua, Gondia, Village- Asanabahali, Gondia, GP- Dasamanpatna of Dhenkanal District was duly advertised in Odia daily "*The Sambad*", dtd. 13.01.2026 and English daily "*The Times of India*" dtd.13.01.2026 (Paper clipping are enclosed as **Annexure-I**).

The Additional District Magistrate has also briefed about the proposed project and requested the public who were present during the public hearing meeting to express their opinion and views on the proposed project. He also requested the representative of the project to highlight about their proposed project before the public.

On behalf of the project proponent, Sri Brahmananda Sahu, representative of M/s MKD Eco Clean Pvt. Ltd., addressed the public and delivered briefly about proposed project and stated that M/s MKD Eco Clean Pvt. Ltd., has proposed Greenfield project for Common Bio Medical Waste Treatment Facility (CBWTF) at Plot No.553/1081, 555,556, 557, 559, 560, 561, 562, 563, ,565, 566, 567, Khata no. 123/124, Mouza- Asanbahali, Tahasil/PS- Gondia, District: Dhenkanal, Odisha. Total land required for the project is 2.65 acre. Out of which 0.87-acre land will be reserved for development of green belt and plant will be planted 2500 trees/ha as per the MoEFC & CC requirement. Facility of the CBWTF such as the Proposed capacity of the plant 7250 Kg/day, Autoclave – 0.50 m³, Shredder – 400 Kg /hr, Incineration (Rotary Kiln)– 400 kg/hr, Incineration – 500 Kg/hr and ETP – 10 KLD. The total water requirement for the project is 12 KLD and will be sourced from Ground water. The base line study on ambient air quality, ground water quality, surface water quality, soil analysis and noise monitoring has been carried out. Anticipated environmental impact and mitigation

measures such as the flue gas resulting from the combustion process is raised to a temperature to $800^{\circ}\text{C} \pm 50^{\circ}\text{C}$ for at least 2 seconds in the incinerator. The incinerator will be equipped with air pollution control system i.e, quencher, venturi scrubber followed by ID fan with 30 m stack. The main wastewater generation sources in the proposed project are water of quencher, cleaning of the floors and pavements of the facility and vehicles, vehicle wash area, etc. will be treated in ETP and the domestic waste water will be disposed in septic tank followed by soak pit and Zero effluent discharge will be practiced. High noise generating equipment's like pumps, motors, etc. should be on antivibration pads, closed rooms and regular maintenance as suggested by the manufacturer and providing suitable enclosures (adequate insulation) to minimize the impact of high noise generating sources. Ash and ETP sludge generated during the operation phase would be sent to the Hazardous waste secure landfill site at TSDF. Low noise emitting plant and machinery will be selected. 33% land area will be developed as greenbelt. The noise level at plant boundary will be maintained below 70 dBA. An environmental management cell will be formed headed by CBWTF head to undertake routine environmental monitoring. Monitoring will be done to ensure compliance with the prescribed laws and standards. Adequate fire mitigation measures will be ensured for handling fire in project area in case of emergency. Disaster Management Plan has been prepared to take care of public health and safety during any accident. The proposed project is expected to yield a positive impact on the socio-economic environment within the study area. It helps to sustain the development of this area including further development of physical infrastructural facilities. About 11 people will get employment during the construction stage. Approx. 30 persons are expected to be employed during operational phase, for the skilled, semi-skilled and unskilled category. The preference will be given to local population for employment in the semi-skilled and unskilled category; this will increase the employment opportunity in the surrounding area.

Regional Officer invited the public to keep their views on environmental related issues for the proposed project and also requested the public to register their names before delivering their views, opinions and suggestion about the proposed project.

About 100-150 public were gathered in public hearing meeting, but none of them were willing to sign in the attendance sheet, which is enclosed as **Annexure-II**. During meeting, eight (08) persons have delivered their views without putting their signature in the attendance sheet. List is annexed as **Annexure-III**.
